SUMMARY:

A graduate with engineering degree in *Computer Science*. An enthusiastic and committed hard worker with an objective to pursue a challenging career, which offers an opportunity to utilize my skills and knowledge for growth of the organization and self.

ACADEMIC QUALIFICATION:

- ***B.E. Computer Science with 66%(Aggregate)*** from REC, Hulkoti
- P.U.C – **71.5%** from P.C.Jabin Science College, Hubli
- SSLC– **80.16%** from Shantiniketan Trust School, Bangalore

RELEVANT SKILLS PROFILE:

Primary Skills	:	HTML5, CSS, Bootstrap, JavaScript, React, Node JS
Basic Skills	:	JQuery, PHP, Python, MongoDB
Operating Systems	:	Win 98, Win XP
Languages	:	JavaScript
Databases	:	MySQL
Configuration Tools	:	Microsoft Visual SourceSafe 6.0
Domain Knowledge	:	Health Care
Documentation	:	MS-Office
Foreign Language known	:	English

CERTIFICATION:

Completed certification course in **Full Stack Web Development (MERN Stack)** at Guvi Technologies in association with IIT Madras.

Received course completion certificate from the institute.

Completed certification course in **Python Programming Language** at ICT Academy in association with IIT Kanpur.

Received course completion and project certificate from the institute.

Completed certification course in Web Design and Development at Apponix
Technologies, Rajajinagar, Bengaluru.
Received Apponix certified professional certificate from the institution.

INDUSTRIAL EXPOSURE:

1. Worked at **CSG** (Centre for Smart Governance), Bengaluru as **Web Designer** for three months.

2. Worked as **Software Engineer** for **Keane Inc** (Formerly called as **Caritor (India) Pvt. Ltd**.) for one year and four months.

   Work Experience: 1 Year + 7 Months

TRAINING UNDERTAKEN

Two months training at Keane Inc, Bangalore on C#.net, ASP.net, ADO.net
Six months training at Oneforce Solutions, Bangalore on SAP-ABAP

PROJECT DETAILS:

Project #1

Project Name	:	*Horizon Expert Plan*
Environment	:	Windows 2000, SQL Server 2005
Software Used	:	C# .NET
Team size	:	7
Duration	:	March-2007 – April-2008
Client	:	**McKesson**
Role / Responsibility	:	Team Member and CTL (Configuration Team Lead)

Abstract: HEP stands for Horizon Expert Plan. A plan is an individualized, multidisciplinary plan for the patient, which represents a collaborative effort of all disciplines to provide care for the patient with a focus of reaching/returning that patient to optimal health/well being. The important tools present in the HEP are namely:

1. Author Tool: This tool is used to create Poblems, Actions, Outcomes, Constituent Plans and Interdisciplinary plans.
2. Editor Tool: This tool is used to relate the Plans created with the Patients.
3. Operation Manager: This tool is used to track the transactions that have been performed in order to coordinate the actions on a particular problem and get the desired outcome.

Worked on different projects as front-end designer at CSG, Bengaluru

HOBBIES:

Writing, Reading, Music, Traveling, Puzzles

PERSONAL PROFILE:

Date of Birth	:	17th May 1985
Sex	:	Female
Languages Known	:	English, Hindi and Kannada.
Nationality	:	Indian
